

21 Cambodia uses mesh cable trays

AI Overview

Mesh cable trays are increasingly used in Cambodia's construction sector, supported by UL-certified products that meet international safety and performance standards.

Adoption and Standards

Cambodia's rapid urbanization and infrastructure growth have driven the adoption of mesh cable trays to organize, protect, and support electrical wiring networks in commercial, industrial, and public projects. Leading manufacturers, such as Cat Van Loi Industrial Electrical Equipment Manufacturing JSC from Vietnam, supply UL-certified wire mesh cable trays that comply with NEMA BI 50015 standards, ensuring electrical safety and long-term reliability in Cambodian projects. These trays are part of broader Mechanical, Electrical, and Plumbing (MEP) systems that are critical for modern building operations.

Manufacturers and Products

Several suppliers provide mesh cable trays in Cambodia:

- Cat Van Loi offers UL-listed wire mesh cable trays, EMT steel conduits, support systems, and grounding solutions, which have been used in major projects like Aeon Mall Phnom Penh, Rosewood Phnom Penh, and Techo International Airport.
- Super Cable Tray Pvt. Ltd. supplies galvanized perforated and wire mesh trays made from high-quality aluminum and stainless steel, suitable for factories, hospitals, shopping centers, and airports.
- Jeetmull Jaichandlall (P) Ltd. manufactures wire mesh cable trays in various sizes, shapes, and colors, emphasizing durability, ventilation, and ease of maintenance for multiple industries including construction, agriculture, and automotive.
