

Cable tray cold bending manufacturer

AI Overview

Leading manufacturers of cable tray cold bending machines include HAIXING, Jinggong, and HOPEX, offering high-precision, customizable, and automated solutions for industrial cable tray production.

HAIXING Cable Tray Bending Machines

HAIXING specializes in high-precision, automated cable tray bending machines suitable for perforated, ladder, and solid trays. Their machines feature PLC control systems, automatic batch and length settings, and production speeds of 10-15 meters per minute, with high-end models reaching 20 meters per minute depending on material and shape. HAIXING provides OEM services, lifetime technical support, and a 2-year warranty, along with remote guidance and on-site training. Their equipment is CE and ISO certified, ensuring compliance with global industrial standards and durability for long-term use .

Jinggong Cable Tray Production Lines

Jinggong offers automatic cable tray roll forming lines that integrate decoiling, leveling, punching, notching, roll forming, straightening, and cutting. These machines are designed for continuous production with AC frequency conversion speed regulation and PLC control. They support coil widths up to 1000 mm and capacities up to 5 tons. Jinggong machines are ideal for steel structure and cold forming industries, providing customized solutions for different tray specifications and production requirements .
