

Dongya Power Distribution Box Specifications

AI Overview

Dongya distribution boxes, including the BXM(D)58 series, are designed for safe, reliable power distribution in hazardous and industrial environments, with explosion-proof, corrosion-resistant, and customizable features.

Key Specifications

Model Series: BXM(D)58 (Explosion-Proof Distribution Box) Material: Aluminum alloy die-cast with high-voltage electrostatic spraying for corrosion resistance and anti-aging performance . Protection Rating: IP66 for dust and water ingress protection, suitable for outdoor and harsh environments . Explosion-Proof Certification: ATEX/IECEx compliant, suitable for flammable gas and dust hazardous areas . Temperature Groups: T1-T6, allowing operation in a wide range of thermal conditions . Applications: Oil & gas, chemical plants, offshore platforms, pharmaceutical, and other dust or explosive environments . Installation: Vertical mounting with optional brackets; outdoor models can include rain covers . Circuit Options: Supports single or multi-circuit entry, configurable manually or automatically according to user electrical schemes . Additional Features:

- Switch handles can be padlocked to prevent unauthorized operation .
- Designed to accommodate terminal blocks, ignition sources, and other electrical components safely .
- Fire protection and anti-corrosion capabilities for industrial use .
