

Explosion-proof distribution boxes in South Africa

AI Overview

Explosion-proof distribution boxes in South Africa are available from certified suppliers like EXB Electric, Extech, CCG, and Drensky, offering ATEX/IECEx-compliant enclosures for hazardous industrial environments.

Overview

Explosion-proof distribution boxes are designed to safely house electrical components in hazardous areas where flammable gases, vapors, or dust may be present. They are commonly used in mining, petrochemical, oil & gas, textile, and fire-prone industrial environments . These enclosures prevent sparks or high surface temperatures from igniting surrounding explosive atmospheres, ensuring operational safety.

Key Suppliers in South Africa

- EXB Electric: Supplies CEAG-manufactured explosion-protected equipment, including flameproof enclosures, control stations, and junction boxes. Their products comply with EN 60079 standards and are suitable for Zones 1, 2, 21, and 22 .
- Extech Safety Systems: Offers intrinsically safe (Exi) and flameproof (Exd) instrumentation, networking, and mobile devices. They provide technical support and certified hazardous area solutions across Southern Africa, including Johannesburg and Durban .
