

Explosion-proof electrical distribution boxes in Serbia

AI Overview

Explosion-proof electrical distribution boxes in Serbia are available from certified manufacturers and suppliers, compliant with ATEX, IECEx, and IEC standards for hazardous environments.

Overview

Explosion-proof distribution boxes are designed to contain internal explosions and prevent ignition of external hazardous atmospheres, making them essential for industries such as petroleum, chemical, marine engineering, and mining. These enclosures are typically constructed from high-strength copper-free aluminum alloys, treated with anti-static coatings, and equipped with anti-loosening fasteners to ensure safety and durability .

Key Features

- **Material and Construction:** High-strength aluminum alloy, corrosion-resistant, anti-static coating, high IP rating for dust and water protection .
- **Certifications:** ATEX, IECEx, IEC, CENELEC, and NEC compliance for operation in hazardous zones .
- **Design Options:** Centralized cabling, modular control panels, terminal boxes, and switchboards with options for LED signal lamps, pushbuttons, potentiometers, and meters .
- **Safety Components:** Ex cable glands, certified electrical components, and temperature-restricted designs to prevent ignition .
