

Funing Galvanized Cable Tray Price List

AI Overview

Galvanized cable trays in South Africa range from light-duty pre-galvanised to medium/heavy-duty hot-dip galvanised, with prices influenced by size, finish, and delivery.

Types and Finishes

- Pre-galvanised (PG) trays: Light-duty, suitable for mild corrosion environments. Example: a 50mm light-duty tray, 3 meters long, with 0.8mm thickness and 13mm side rail height, finished in Z275 galvanised steel .
- Hot-dip galvanised (HDG) trays: Medium to heavy-duty, offering enhanced corrosion resistance for demanding environments. Example: a 100x50mm wire mesh tray, 3 meters long, side wall height 50mm, hot-dip galvanised .

Price Considerations

- Prices vary depending on tray type, dimensions, and finish. Light-duty pre-galvanised trays are generally more affordable than hot-dip galvanised trays.
- Delivery costs may apply, especially for lengths exceeding 2 meters, which require truck delivery .
- Additional factors affecting price include material thickness, side rail height, and duty rating (light, medium, heavy).

Purchasing Options

- Suppliers like Advanced Strut and Online Electrical offer a range of galvanized cable trays, including perforated, wire mesh, and ladder types, with both pre-galvanised and hot-dip galvanised finishes .
