

Guatemalan manufacturer of active optical modules SFP

AI Overview

Currently, there is no publicly documented Guatemalan manufacturer of active optical modules (SFP).

While Guatemala has a growing technology sector, the production of active optical transceivers such as SFP, SFP+, QSFP, and CFP modules is predominantly concentrated in countries like China, the United States, and parts of Europe. Leading manufacturers include 10Gtek, QSFPTEK, MeFiber, Arista, and Topstar, which produce a wide range of SFP and other optical modules with OEM/ODM services, high-speed data rates, and compatibility with major networking brands (Cisco, Juniper, Arista, Dell, Huawei) .

Options for Guatemalan Buyers

- Import from International Manufacturers
- Companies like 10Gtek and QSFPTEK offer SFP+ active optical cables and modules with global shipping and technical support .
- These suppliers provide modules ranging from 1G to 100G, including hot-swappable SFP+ and QSFP+ modules suitable for data centers and telecom networks.
- OEM/ODM Partnerships
- Some manufacturers, such as Topstar, provide customized SFP solutions and can collaborate with regional distributors to supply Guatemala .
- This allows local companies to brand and integrate modules without establishing full-scale manufacturing locally.
