

List of Fireproof Cable Tray Prices and Construction Items

AI Overview

Fireproof cable trays are priced based on material, size, and fire-resistance rating, typically ranging from \$8 to \$30 per linear foot, and are classified according to construction type, material, and fire performance standards.

Pricing Overview

Fireproof cable tray costs vary depending on material, coating, size, and supplier margins, as well as installation and shipping costs. Common price ranges include:

- Steel wireway systems: \$8-20 per linear foot, offering strength and durability at a lower cost .
- Aluminum trays: \$12-30 per linear foot, providing corrosion resistance and lighter weight .
- Fiberglass or molded fireproof trays: Prices vary based on fire rating and environmental suitability, often used in high-temperature or industrial settings . Bulk orders and supplier selection can influence final pricing, and hidden costs such as installation, cable cleats, and fireproof coatings should be considered .

Construction and Classification

Fireproof cable trays are classified based on material, design, and fire-resistance performance:

- Material Types: Steel, aluminum, fiberglass, and molded composites .
