New Zealand Fire-Resistant Cable Tray Price Quote

AI Overview

Fireproof and resistant cable trays in New Zealand are available from suppliers like Treadwell Group and Steel & Tube, with prices varying by material, size, and load capacity.

FRP (Fiberglass Reinforced Plastic) Cable Trays

Treadwell Group offers EXduro™ FRP cable trays and ladders, which are fireproof, corrosion-resistant, non-conductive, and UV-resistant, designed for harsh industrial environments in New Zealand and Australia . These trays come in ladder and solid tray designs, with pre-assembled fittings, bends, couplers, and covers for faster installation. They are engineered for a 50-year design life and are suitable for light wiring and pneumatic tubing systems. Pricing is typically quoted per meter or per system, depending on tray width, load rating, and accessories. For exact pricing, Treadwell Group provides custom quotations based on project specifications.

Steel and Metal Cable Trays

Steel & Tube supplies a range of steel cable trays and ladders, including the EzyTray system, suitable for industrial and commercial applications . These trays are robust, fire-resistant, and can support heavy cable loads. Pricing depends on tray type (ladder, trough, or basket), material thickness, and length, and Steel & Tube offers full take-offs and quotations from project plans. Stainless steel options are available for corrosive environments.
