

Price of high-speed punching machine for Burkina Faso cable trays

AI Overview

High-speed, fully automatic cable tray punching machines typically range from \$8,000 to \$20,000 or more, depending on specifications, automation, and customization.

Price Overview

The cost of a cable tray punching machine depends on several factors including automation level, tray capacity, speed, and additional features. Machines are generally categorized as follows:

- Manual machines: \$1,000 - \$3,000, suitable for small-scale projects with low production volume .
- Semi-automatic machines: \$3,000 - \$8,000, offering moderate automation and efficiency .
- Fully automatic high-speed machines: \$8,000 - \$20,000+, designed for industrial-scale production with PLC control, hydraulic punching, and high output efficiency . High-speed models, such as the 3kW PLC-controlled punching machine, can handle up to 6mm thickness and punch at speeds of 20 meters per minute, making them ideal for large-scale cable tray production . Fully automated lines from manufacturers like ZTRFM integrate roll forming, hydraulic punching, and automatic cutting, providing stable production and reduced labor costs .

Additional Considerations
