

SCST Single-mode Fiber Optic Patch Cord

Overview

With SC to ST connectors, the FCA-S1SR-SCST-01M fiber patch cable from L-com is ready for deployment in any single mode OS1 9/125 network. This single mode, simplex fiber cable is comprised of corning optical fiber with ceramic connectors. Single Mode 9/125 (OS2) fiber optic cables are used for single mode applications intended to run long distances due to the low rate of attenuation that results from the single projected light source. Also available are single mode patch cables with AR-coated FC/PC or FC/APC connectors for improved fiber-to-free-space coupling. This category includes a range of custom and stock singlemode fiber optic patch cables designed to deliver low-loss, high-performance connections for critical network applications. Interchangeability, temperature.
