

Turkish large-core optical fiber

Overview

Mass production of advanced optical fibers in Turkey is now for the first time a reality – an important development that has been achieved as the result of a 10-year study at the National Nanotechnology Research Center (UNAM). Upcom is a Turkish company that specializes in manufacturing and supplying fiber optic cables, among other networking products. Due to our fully equipped production facilities, laboratories and long-term expertise in fiber optics, we are able to produce a first class fiber optic assemblies portfolio. The Construction Products Regulation (CPR), which is accredited by the EU, is a certificate that aims to regulate the limits of fire safety and dangerous substances in materials used in construction.
